THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT 50 U. S. C. 31 AND 32, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1

1. The SMB is soon to activate a complete, independent telephone communications system which is to consist of 15 main switchboards located in the larger cities throughout Czechoslovakia and an unknown number of regional switchboards in the smaller cities. Source asserts five of the main switchboards and twenty-five regional switchboards are already in operation. The Tesla plant at Kolin (051/M38), formerly Prchal-Ericson, has recently put into production 15 automatic telephone switchboards and 250 smaller automatic telephone switchboards, which source states are to be incorporated into the SMB telephone system.
2. Almost every SMB post, especially those in the border regions, will be serviced by this communications network. The net, which is to be completed by the end of 1951, will enable the SMB to alert its entire command within 15 minutes. Posts in the border areas will furthermore be supplied with sufficient vehicles to enable them, when alerted, completely to occupy every section of the border within 15 to 30 minutes.
